Hi Mandi

We do only have tenured roles or those on a long term contract (more than 12 months). As you can imagine over the three campuses there are heaps of people who are employed as research assistants or casual support staff and if we tried to add their photos we would be constantly changing all three boards.

Nike Prince has raised this issue with me previously on many occasions and she falls into a category or group of staff who are employed on 6 - 12 month contracts but they are continuously renewed. so while they have been here for years and years they are only employed on short term contracts.

Part time staff should be up on the board it is not your time fraction rather your length of contract that is the key determinant.

I know that this is an issue for some staff and I am happy to hear suggestions on how we can improve/ change the situation

Cheers  
Vicki
